

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX TO VOL. XXV, YEAR 1862.

	PAGE
ADMINISTRATION, see <i>Wills</i> .	
AGRICULTURAL LABOURERS, Earnings of, in Scotland and Ireland (see <i>Purdy</i>)	425
AGRICULTURE.— <i>Agriculture in Holland</i>	398
Area under cultivation, nature of crops, and average production	398-9
Rent of land, wages of labourers, &c.	399
Taxes, live stock	400
ALBERT, Prince Consort, Minutes of Special Meeting on his Death	1
ANNUITIES (Terminable), question relative to income tax on	361-4
APPOINTMENTS (Government), plan of open competition for inferior	64
ARMIES, STANDING, wastefulness of, as exemplified in France, &c.	522-3
ASSURANCE (LIFE), exemption of premiums on, from income tax	360
AUSTRALIA (South), census of (see <i>Census</i>)	393
BANK OF ENGLAND.	
weekly account of the issue and banking departments :	
Fourth quarter, 1861 . 103 Second quarter, 1862 . 423	
First „ 1862 . 295 Third „ 1862 . 558	
BANKS (COUNTRY), amounts of promissory notes in circulation (in Great Britain):	
Fourth quarter, 1861 . 104 Second quarter, 1862 . 424	
First „ 1862 . 296 Third „ 1862 . 559	
BANKS, JOINT STOCK, quinquennial analysis of the transactions of the .	
Metropolitan Joint Stock Banks	538
BENGAL (LOWER), prison statistics and discipline in (see <i>Mouat</i>)	175
BERG (Dr.), on the mode of obtaining Swedish statistics, and on comparative statistics	116-18
BIRTH (Concealment of), the punishment of, not a cause of infanticide	225
BIRTHS, <i>tables</i> of, in Sweden	159-67
(MULTIPLE), large ratio of, in Sweden	132-3
(STILL), statistics of, in France and Belgium	224
— want of returns of, in England	223
BODY (Human), growth of, in height and weight (see <i>Danson</i>)	20
BRITISH ASSOCIATION for the Advancement of Science (Section F), Economic Science and Statistics—List of Papers read October, 1862	525
address of the President (see <i>Chadwick</i>)	502
BUDGET (THE FRENCH), for 1863, its principal provision, conversion of stock, new taxes, &c.	79
BULLION and specie, gold and silver, imported and exported :	
Jan.—Dec., 1859-61 . 99 Jan.—June, 1860-62 . 419	
Jan.—March, 1860-62 . 291 Jan.—Sept., 1860-62 . 554	

	PAGE
CENSUS, Wargentins's memoir on those of Sweden, benefit of its publication	112
mode of operation of the "Tabell Commission" of Sweden, in taking	123
<i>Census of France in 1861, Outline of Two Articles on, by M. Block (by F. W. Haddon)</i>	72
Comparative annual increase of population from 1826 to 1861	72
Decrease in some departments	72
Comparison of progress of population with other European countries, showing a very low rate in France	73
Comparison of birth, marriage, and death-rates	73
Causes of low birth-rate in France	73
<i>Census of South Australia, 1861</i>	393
Extent of occupied districts, increase of population by natural increase and immigration, &c.	393
85 per cent. of population country residents	393
Equality of the two sexes in numbers	394
Age, occupations, education, and nationalities	394-5
Increase of substantial dwellings, &c.	395
Numbers and condition of aborigines	396
CHADWICK (Edwin). <i>Address as President of Section F (Economic Science and Statistics) of the British Association, October, 1862</i>	502
Objections to economical science by Carlyle and Ruskin, for deficiencies in mental and metaphysical subjects, which belong to entirely different provinces of science	502-3
Intimate relations of economical science with high public morality	503-4
Filth and squalor of cities, the seats of ancient art, from the want of economic principles	504
Right of economical science to consider a human being simply as an investment of capital	504
Calculation of the actual cost of a working man, and benefits likely to be derived from more attention being given to him as an investment	505-6
Annual excess of preventible mortality, diminution during periods of distress, &c.	506-7
Saving by sanitary measures, as illustrated in the army	507-8
Ditto, as illustrated by convict and emigrant contracts for payments for those only landed alive	509
Productive power of English labourers much greater than those of other countries; and economic conclusions from ditto	509-10
Inferiority, on economic grounds, of the Jews to the English, from their loss of one-third of the year in Sabbaths, Sundays, and festivals	511
Loss of time from feast days, fairs, &c., in France, Prussia, and Ireland, accompanied by a lower average duration of life than in England	511-12
Economic loss from overworking factory children, and benefits of the Factory Act now acknowledged by its opponents	512-13
Mr. Bianconi's illustration of the economic gain of keeping the seventh day's rest for his horses	514
Valuable assistance of mental relief and stimuli in giving energy to work	514
Increase of physical force from personal cleanliness	514-15
Examples of the greater productiveness of educated, over uneducated, labour	516-18
Injury to children from excess of hours employed in daily mental instruction	518
Gain of one-fifth in power by physical training	519
Exemplifications of the concurrence of economic with religious and moral principle in public education	519-21
— Royal Military Asylum and Greenwich Naval School	520-1
Wastefulness of standing armies, and economical advantages to France of the reduction of hers	522-3
General conclusions	524
CHINA, progress of the trade of England with, since 1833 (see <i>Sykes</i>)	3
protestant missionary labours in	16-18
Christian origin of the Taeping rebellion in	18
CHINESE, percentage of, among diggers in Victoria	397
CHOLERA, ravages of, in Sweden	136-7
CLEANLINESS, personal, increase of physical force from	514-15
COLONIES, question of their paying for their own defence	350
utility of, as fields for emigration (see <i>Merivale</i>)	491
question of the non-necessity of their retention	491
importance to our well-being of continued political relations with	496
COLUMBIA (BRITISH), the new gold region in, yield of gold, prices, wages, aggregate and average earnings of miners, &c.	80

	PAGE
CONGRESS (ITALIAN SCIENTIFIC), Tenth. Copy of circular for its meeting in September, 1862	389
— programme	389
COPYHOLD enfranchisement commission	305-7
CORN, average weekly prices (with monthly and quarterly averages) :	
Fourth quarter, 1861 102	422
First ,, 1862 294	557
Second quarter, 1862	422
Third ,, 1862	557
COTTON, reduction of charge of conveyance of, by railways in India, &c.	392
COTTON TRADE, <i>the Great Crises in the History of</i> , 1852-61.	527
rise of prices from 6½ <i>d.</i> in 1853, to 1 <i>s.</i> 6½ <i>d.</i> in July, 1862	527-9
<i>table of import, export, consumption, and prices</i> , 1801-61	530-3
COTTON MANUFACTURES, number of persons employed in	378
the distress in, due to over production	380-1
COTTON SUPPLY, <i>extent of the deficit in</i>	402
Capability of East India supplying the place of American cotton	402
Great increase in consumption of Surat cotton since January	403
State of imports this year, and stocks in hand and at sea, as compared with 1861	402-3
Resale of cotton by manufacturers, in preference to employing their operatives on it	404
Estimate of growth in India	404
Exports of cloth and yarn in 1860-62	404
CRIME, on the prevention of (see <i>Hill</i>)	497
CRIMINALS, number of habitual, in England	497
means of attacking, the fixing the cost of repression on property, harbouring them	500
CROFTERS and cottars in Scotland	426
CURRENCY (inconvertible paper), <i>effects in New York in November</i> , 1862	532
DANSON (J. T.) <i>Statistical Observations on the Growth of the Human Body (Males) in Height and Weight, from Eighteen to Thirty Years of Age, from records of the Borough Gaol of Liverpool</i>	20
Importance of physical maturity as the basis of every other	20
Insufficiency of Quetelet's figures for reliable data as to height, &c.	20-1
Fulness of the record of particulars in the borough gaol	21
Modes of taking account of the prisoners	22
Imperfect accuracy of the record of <i>age</i> , and its causes	22
<i>Table of average heights between 18 and 30</i>	24
Comparisons with French and Belgian observations	24-5
<i>Table of average weights</i>	25
Conclusions	26
DANVERS (Mr.) see <i>Railways in India</i> .	
DEBTS (NATIONAL), on the progress and economical bearings of, in this and other countries (see <i>Levi</i>)	313
of England, rise of, 1691-1837	315
— progress of 1691-1861	334-7
— non-increase of, since 1820	316
— comparison with the national wealth, and with that of other countries	316-18
— proposal for annihilating in 100 years, by terminable annuities	319
of other countries of Europe	327-9
of various countries, amounts of	333-4
increase of foreign	321
of France, progress of, &c.	322-4
of United States, amounts, &c.	325-6
DIETARIES of unions in Ireland, &c.	457-60
of Irish workhouses more nutritious than English	460-1
(Prison) of Bengal, nature, cost, &c., of	186-94
DISTRESS and resources of Lancashire, 1862, &c.	535
see <i>Cotton</i> .	

	PAGE
DRAINAGE of lands, Acts, advances for commission of sewers, &c.	{ 301-3 307-10
ECONOMIC SCIENCE, intimate relations of, with high public morality . . .	503-4
EDUCATION (POPULAR) in England and Wales, resources of (see <i>Mann</i>) . . .	50
— great increase in, since 1818 . . .	51
— favourable comparison of, in England, with European countries . . .	51
— rapid forgetfulness of . . .	54-5
EMIGRATION to British Colonies and United States, 1815-61 . . .	537
utility of colonies as fields for (see <i>Merivale</i>) . . .	491
why beneficial to the mother country . . .	492
EXCHANGES (FOREIGN) quotations on London, &c. :	
Oct.-Dec., 1861 . . . 104	April-July, 1862 . . . 424
Jan.-April, 1862 . . . 296	July-Oct., 1862 . . . 559
EXPORTS, United Kingdom :	
Jan.-Dec., 1857-61 . . . 97	Jan.-June, 1858-62 . . . 417
Jan.-Mar., 1858-62 . . . 289	Jan.-Sept., 1858-62 . . . 552
FEVER in Oxford, notice of, by Dr. Acland . . .	89
FRANCE, census of, in 1861 (see <i>Census</i>) . . .	72
the budget for 1863, conversion of stock, and proposed new taxes and other projects of M. Fould . . .	79-80
see <i>Armies</i> ; <i>Debt</i> (National) ; <i>Illegitimacy</i> , &c.	
FUNDS, steadiness of English compared with foreign . . .	321
value of 3 per cent. consols, 1786-1860 . . .	338
GERMANY, social condition of, in the seventeenth and eighteenth centuries (notice of M. Freytag's work) . . .	77
degraded condition and serfdom of the peasantry in the eighteenth century . . .	77
GOLD. <i>Decreasing Production of Gold in Victoria (Australia)</i> . . .	396
Probable average of earnings of miners . . .	396-7
Fluctuations of wages, showing decline since 1854 . . .	397
Percentage of Chinese diggers . . .	397
Statistics of quartz mining operations . . .	397
Value of the mining plant in the colony . . .	398
GOLD, gradual decrease in its production in Australia, 1856-61 . . .	77
new gold region of British Columbia, wages, prices, aggregate earnings of miners, &c. . .	80
GUTZLAFF'S "Christian Union," particulars of ^t . . .	17
HEALTH, state of the public :	
Quarter Dec., 1861 . . . 88	Quarter June, 1862 . . . 410
" Mar., 1862 . . . 279	" Sept., 1862 . . . 543
HEIGHT of body, table of average, between 18 and 30 years of age . . .	24
HENDRIKS (Frederick). <i>On the Vital Statistics of Sweden, from 1749 to 1855</i> . . .	111
Prejudice against, and opposition to, statistical inquiries . . .	111
Early example set by Sweden in publication of details of population . . .	111-12
Population of Sweden in 1757-75, its thinness and dispersion . . .	111
Benefit to other countries of the translation and publication of Wargentin's "Memoir on Swedish Censuses in the Transactions of the Royal Academy of Stockholm" . . .	112
Recommendation of population tables by Price and De Moivre . . .	113
Drs. Price, Bailly, and Malthus's calculations from the Swedish tables of Wargentin . . .	113-14
Milne's accurate calculations, and notice of points of distinction between Sweden and England . . .	114-15
Nicander's continuation of the Swedish tables . . .	115-16
Dr. Berg's observations on the mode of obtaining the statistics . . .	116
Obstacles to the diffusion of information on the subject of Swedish statistics . . .	117
The present first publication in England of the past statistics of Sweden, as distinct from Finland . . .	118
The comparative statistics of other countries due to Dr. Berg . . .	118*

HENDRIKS (Frederick). *On the Vital Statistics of Sweden—contd.*

Law for the keeping of the registers by the clergy, and its superiority to the English system	119
Appointment of a sanitary commission, and origin of national medical statistics, &c.	120
List of documentary records relative to population, in the possession of Sweden	120-2
Mode of operation of the "Tabell Commission" in census enumerations	123
Explanation of Tables A, B, C (general results)	123-7
— of Tables D, E, F (progress of population)	127-30
— of Tables G, H, I, K (conjugal condition of the people)	130-1
— of Tables L to S (birth-rate, illegitimacy, &c.)	131-3
— of Tables T to Z (death-rate, suicides, &c.)	133-7
Numerous and elaborate statistical facts, and analysis of them in these tables	134
Expectation of life	136-7
Ratio of increase in Sweden one-third less than in the United Kingdom	138
Exceptional character of Sweden, in the very small number of town to country population (one-tenth)	138
Density of population in Sweden only one-eleventh that of England	138
Statement showing the small average population of towns	139
Threefold increase of illegitimacy since 1785	132
Large ratios of multiple births in Sweden	132-3
Great excess in mortality of town districts	134
Increase of suicides, five times, since 1780	135
Comparative statement of decrease in deaths, from small-pox, since vaccination, from 7·83 to 0·09 per cent.	135
Description of the ravages of plague and cholera in Sweden	136-7
Tables (A). Population of Sweden, and statistical results relating thereto, 1749-1855	138-43
— (B). Proportion who died in each year of life	144-7
— (C). Life tables for Sweden	148-50
— (D). Increase of population	151-3
— (E and F). Proportion of rural to urban population and of sexes, in various countries	154-5
— (G to K). Marriages: various proportions, civil position, ages &c.	156-9
— (L, M). Births: proportions, &c.	159-62
— (N). Illegitimacy	163-4
— (O to S). Sexual ratio, still-births, ages of women, deaths in child-bed, &c.	165-7
— (T, U). Deaths: proportions, &c.	168-9
— (W.) Ditto, distribution in months	170-1
— (X.) Suicides	172
— (Y, Z). Deaths, from accidents, small-pox, &c.	173-4

HILL (Edwin). *On the Prevention of Crime*

Numbers of habitual criminals (thieves, &c.) in England and Wales, and amount of property stolen	497
Moral evils connected therewith; contamination of honest children; and fate of children born to crime	498
Necessity of premises for their illicit work, an essential condition of the existence of the predatory class	498
Question whether the criminal class may not be attacked through the landlords who harbour them	498-9
Means to be adopted, the fixing the tax or cost of repression exclusively on property harbouring the predatory class	500
Probable consequences attending the consequent dislodgement of so large a numbers of offenders	500-1
Analogous circumstance of the suppression of the Whitefriars "sanctuary" in the seventeenth century	501

HOLLAND, agriculture in (see *Agriculture*)

HOSPITALS. *Statistics of the General Hospitals of London, 1861*

Resolution of the Guy's Hospital meeting, for uniform registration of patients	384-5
Table of general results of admissions, relief, deaths, &c.	384-6
— medical and surgical cases, and average number of patients, and mean residence	386-7
— rate of mortality and admissions and deaths in general and special wards	388

ILLEGITIMACY, statistics of (see *Lumley*)

table, showing proportion to gross number of births, 1841-59	219
supposed increase, 1830-42, based on errors in returns	221
amount of, in different counties, 1842-59, &c.	222
question of race, British, Saxon, or Danish, as affecting	227-31
in different towns	235
supposed causes of non-increase of, in England	238-40
(Pauper) changes in law of bastardy, and their effects; percentage in unions, &c.	274
	245-56

	PAGE
ILLEGITIMACY in Scotland	256-62
do., effect of the Scottish law legitimatizing children born before marriage, on the increase of	261-2
in foreign countries	263-74
in France	266-8
in Sweden, threefold increase of, since 1785	132
— tables of	163-4
IMPORTS, United Kingdom :	
Jan.-Nov., 1857-61 96	Jan.-May, 1858-62 416
Jan.-Dec., 1858-61 287	Jan.-Aug., 1858-62 551
Jan.-Feb., 1858-62 288	
INCLOSURE Acts, table of, 1800-61	312
INCLOSURE COMMISSION, its powers and principle on which exercised (see <i>Tottie</i>)	297
INCOME TAX, an indiscriminating one reconsidered (see <i>Sargant</i>)	339
the cost of Government principle the proper measure of taxation in	340-52
on terminable annuities, questions relative to	361-4
Mr. Warburton's opinion of a uniform rate not tangible	366-7
objections to Dr. Farr's scheme of capitalization	367-8
objections to Mr. Mill's plan for non-taxation of savings, &c.	369-71
arguments for the taxation of the excess above £100 only	372-4
INDIAN railways in 1861-2 (see <i>Railways</i>)	390
IRELAND, see <i>Agricultural Labourers, &c.</i>	
LABOUR, greater productiveness of educated over uneducated	516-18
and wages in Victoria, 1861	75
in its penal and reformatory relations in Lower Bengal	206-11
LABOURERS (English), productive power of, much greater than those of other countries	509-10
loss of time to Jewish, Irish, and continental, from excess of feast days, &c.	511-12
see <i>Agricultural Labourers.</i>	
LANCASHIRE, extent of pauperism in the distressed unions in (see <i>Purdy</i>)	377
annual value of real property in, in 1843 and 1860	379-80
the distress in, due more to excessive over-production than to the failure of the cotton supply	380-1
<i>distress and resources of, in 1862</i>	535
comparative poor-rate expenditure in 1842-60	535
LAND Legislation in New South Wales, 1861	74
conditions relative to the selection and conditional purchase of land in New South Wales	74-5
LEVI (Leone). <i>On the Progress and Economical Bearings of National Debts in this and other Countries</i>	313
Necessity of resorting to loans for sudden emergencies, but objections to them as throwing our own burdens on posterity	313-14
Expenses of a war a moral check on the ambition and lust of conquest in nations	314-15
Rise of our national debt from 1691 to 1837	315
Amount of stock created, 1731. for every 100l. obtained	316
Non-increase of the debt since 1820	316
Comparison of the debt and its interest with population, national wealth, expenditure and income, from 1801 to 1861, showing its comparative decrease	316-17
Comparison of debt with that of other countries	318
Difficulties frustrating any attempt at a continuous sinking fund	318-19
Proposal for annihilating the national debt in one hundred years, by its conversion into terminable annuities	319
Error of supposing the national debt to be beneficial, &c., and easy formation of other parliamentary securities for investment	320
Steadiness of English compared with foreign securities	321
Increase of foreign national debts	321
France, details of the extraordinary credits, loans, &c., 1851-61	321-2
— notice of the progress of the public debt from time of Louis XIV	322
— progress of ditto, 1850-60	323
— operation of the conversion of the 4½ into 3 per cent. stock, and its effects	323-4

LEVI (Leone). *On the Progress of National Debts, &c.—contd.*

United States, credit due to them for twice paying off their entire public debt	325
— amount of debt, 1852-61, and present gigantic expansion	325
— increase in wealth and resources of each State, 1850-60	326
Italy, debt of 90 millions sterling in 1861, prospects	327
Austria, progress of the debt, 1811-60	327
Prussia, Russia, Mexico, Turkey, progress of their debts since 1850	328
Only two countries exempt from debt, Switzerland and Paraguay	329
Unjustifiable character of foreign loans to countries carrying on war	329
Funded and unfunded debt of United Kingdom, 1861	331
Capital of terminable annuities, 1860	331
Charges on, and cost of management of, debt, 1860	332
Number of persons entitled to dividends, 1860	333
Amount of national debts and relation to public expenditure in various countries	333-4
Progress of British national debt, 1691-1861	334-7
Value of 3 per cent. Consols, 1786-1860	338

LIFE, expectation of, in Sweden	126-7
LUMLEY (W.G.) <i>Observations upon the Statistics of Illegitimacy.</i>	219

The picture of the morals of this metropolis, drawn darker than the reality, by Mr. Acton and others	219
Statistics of illegitimacy in England and Wales generally	220-6
Particulars of form of registration	220
Illegitimacy greater than can be inferred from the register	220
Table, showing proportion of illegitimate to gross number of births, 1841-59	221
Supposed large increase of illegitimacy between 1830-42, based on errors in the earlier returns	222
Illegitimate children registered in various counties, 1834-7	223
Want of returns of still-born children in England	223
Statistics of still-born children in France and Belgium, showing excess among illegitimate ones	224
Punishment of the offence of "concealment of birth" not a cause as supposed of the vast amount of infanticide	225
Ratio of marriages to population, 1844-60	226
Numbers of illegitimate children in different counties, 1842-59	227
— ditto to every 100 births	228-9
— relative positions of counties as to amount of illegitimacy	230-1
Highest rate of illegitimacy found in counties most spare of population	232
Proportion of marriages, signatures, early marriages, and illegitimate children in each county	233-5
Questions of race, British, Saxon, or Danish, as affecting illegitimacy	235
Tables of concealment of births, disobeying bastardy orders, and prostitutes in each county	236-8
Illegitimacy in different towns	238-40
Influence of the seasons of the year on illegitimacy, not important	241
Difference between sexes in illegitimate births (greater number of males than among legitimate)	242-5
Pauper illegitimacy, changes in the law of bastardy, and their effects, &c.	245-7
Table, &c., of percentage of illegitimacy in unions, 1849-59, showing gradual decrease	248-9
— ditto in counties, 1835-57	250-1
— comparative, of pauper bastardy and industrial statistics, in counties	252-6
Illegitimacy in Scotland	256-62
— tables of percentage of illegitimacy, 1856, 1859, &c.	257-8
— division of ditto into insular, mainland, and town, 1855-6	259
— excess of illegitimacy in well educated districts, and of improvident marriages where education is at a low ebb	260-1
— question discussed of the effect of the Scottish law legitimatizing children born before marriage, on the increase of illegitimacy	261-2
Illegitimacy in foreign countries	263-74
— tables, &c., showing excessive percentage for Bavaria, Saxony, and Wurtemberg	264-5
— statistics of illegitimacy in France, by M. Legoyt	266-8
— tables of proportion of marriages to density of population in different countries	268-9
— excess of illegitimacy in rural districts in Britain, and in towns on the Continent	271
— illegitimate births 50 per cent. in Vienna, Prague, &c.	272
— question of the effect of prostitution in London in checking illegitimacy, and accounting for low average of 3 per cent.	273
Supposed causes of the non-increase of illegitimacy in England	274

LUNATICS (PAUPER), percentage in Great Britain	33
--	----

	PAGE
MANN (Horace). <i>The Resources of Popular Education in England and Wales; Present and Future</i>	50
Points to be considered: our existing and our future provision	50
Almost all children at some time or other on the books of some school	50-1
Great increase in proportion to population since 1818, 1 in 17 to 1 in 7	51
Favourable comparison with European countries	51
Average periods over which tuition extends	52
Numbers of schools and scholars attached to religious persuasions, &c.	53
Total cost and sources of income	53-4
Proportion of scholars successfully educated (1 in 8)	54
Rapid forgetfulness of education, as exemplified in examination of letter carriers, &c.	54-5
Gradual decrease of signatures by marks to marriage registers, 1841-60	55-6
Large number of small poor parishes not receiving Government aid	56-7
Proportions of the Government grant to different religious communities	57
Its distribution (80 per cent.) to the established church, proportionate more to its wealth than numerical position	58
Statement of the three sources of income for schools, and their relative importance	59
Question as to the number of private self-supporting schools, and modes of increasing them	60-1
— inspection of private schools and examination of their masters	61
— suggestion for increase of schools connected with benefit societies	62
Calculation relative to the ability of the people to increase their school contributions	63
Prize schemes, and plan of open competition for inferior Government appointments	64
Beneficial effects on the retention of knowledge of a more extended adoption of evening schools	65-6
Increase of funds from restoring educational charities to their proper objects, &c.	67
The expense of the training colleges principally defrayed by Government	68
Different computations of probable amount of public taxation required	68-9
Parliamentary grants, 1859-61, income of educational societies and income from school fees	71
MARRIAGES, <i>tables of, in Sweden</i>	156-9
ratio of, to population, 1844-60	226

PURDY (Frederick). <i>On the Earnings of Agricultural Labourers in Scotland and Ireland</i>	425
— Excellence of Irish official statistics	426
— Scotland, six classes of agricultural labourers	426
— the crofters and cottars, yield of the crofts	426
— excellent character and deportment of the peasantry	427-9
— modes of payment of farm servants, value of "benefit," &c.	427
— "hind" system, payment of shepherds in sheep, &c.	428-9
— rate of wages in 1860, allowances, &c., in groups of counties, and classes of labourers	429-33
— ditto for all Scotland	433-5
— demand and supply of agricultural labour, rate of wages inversely to proportion of adults engaged in agriculture	435-6
— rise in rate of wages from 1835 to 1860, and comparative rates in 1660, 1743-90, 1810, &c.	437-41
— cost of labourer's food, clothing, and rent	441-5
— Ireland, three classes of agricultural labourers	445
— rate of wages in 1860, allowances, &c., in each province, acres under crops	446-50
— supply of labour, rise in wages	451-6
— evidence of scarcity of labour in some counties, and of employment in others	451-2
— comparison of wages in 1844 and 1860, showing increase	454
— instances of the assistance of his family to the labourer	455-6
— labourer's expenditure for food, clothing, and rent	456-64
— diet of unions in Ulster	457
— dietaries of five Irish counties	458
— average weekly cost of families 1s. 2d. each person	458
— Ulster dietaries much below other counties as to cost	459
— Parallel of food consumed by a family supported by work, and when in the workhouse	459
— advantage to the Irish labourer of the substitution of Indian meal for potatoes	460
— the Irish workhouse dietary more nutritious than the more expensive English dietary (explained)	460-1
— cost of clothing of agricultural labourers and their families	461-3
— rents of cottages 15s. to 80s.	464
— numbers and ratio of farms and mud cabins in each province of Ireland	464
— Average rates of wages, rise in, and range of ditto, weekly cost of food, &c. in the three kingdoms	465
— Table of weekly money wages, task-work payments, and harvest wages in Scotland, 1860	467-8
— Ditto. 1835-44 compared with 1860	469
— Yearly wages and allowances to farm servants, 1835-43 and 1860	470-1
— Table of cost of food, firing, clothing, and rent in Arbroath, 1812-33	471
— Tables of shop prices of food in various parts of Scotland, 1835-60	472-4
— of shop prices of articles of clothing in counties of Scotland, 1860	475-7
— rentals in the Highlands and Islands	478
— population occupied in agriculture in Scotland in 1851	479
— of weekly money wages and task-work in each province and county of Ireland, 1860	480-2
— ditto average of agricultural labourers and artisans	483
— cost of diet and clothing in Galway and in unions	484-9
— yearly rents paid by Irish peasantry	490

RAILWAYS, prices and traffic :

SARGANT (William Lucas). <i>Undiscriminating Income Tax reconsidered</i> . . .	339
Report of Mr. Hubbard's Committee against alterations of the tax . . .	339
The various conflicting opinions on the advantages or disadvantages of the tax . . .	339-40
Necessity of appealing to first principles and illustration in a supposed colony such as "Salt Lake," showing the cost of governing to be the measure of taxation . . .	340-1
The cost of government principle shown to override any claim as to age or tenure . . .	342
Ditto as to capitalized value or savings . . .	343
Ditto as to sacrifice, earned incomes, and small incomes . . .	344
Ditto as to graduation according to wealth . . .	345
Distinction between current expenditure and permanent improvements . . .	346
Application of the "Cost of Government" principle to the question of temporary earned or independent incomes . . .	346-8
Difficulties in the application of ditto to our more complex condition . . .	349-52
Adam Smith's dictum regarding our country as an estate, on which each proprietor contributes according to his revenue from it . . .	349-51
Question of colonies paying for their own defence . . .	350
Proportion of Government cost to individual taxation, and objections to graduations . . .	351-2
Difference of taxation for permanent improvements and that for current expenditure . . .	353
Age not entitled to consideration in taxation for current expenditure . . .	354-5
The same with regard to other proposed immunities . . .	355
Case of a physician and a landowner, showing the former to be entitled to no favour on account of the precariousness of his income . . .	356-7
Life tenancy, owing to the custom of primogeniture, or settlement, not entitled to reduction of rate . . .	357
Reasons against lowering assessment of rent of land and clergymen's tithes . . .	358
Unfair assessment of small house property and of mines . . .	359
Exemption of premiums on life insurance . . .	360
Indefensible permission of assessment on last year's profits when below the three years' average . . .	360
Terminable annuities, a reduction only allowable on purchased ones . . .	361
— injustice of the Government in charging the long annuities with income tax to the full . . .	362
— cases of Lands improvement Company, and by Mr. Newmarch, showing its injustice and means of evasion . . .	363-4
— objections to term, annuities, as subjects of transfer, from this unfairness . . .	364
Life annuities, liable to the full tax as incomes for entire expenditure . . .	365
Comparative case of twin daughters, one with annuity, and the other with a charge on real estate . . .	365
Mr. Warburton's opinion of the necessity of a uniform rate from year to year not tangible . . .	366-7
Objection to Dr. Farr's scheme of capitalization of values of annuities, consols, rents, &c., that the taxes on them require capitalizing as well . . .	367-8
Objection to Mr. Mill's plan for non-taxation of savings, with illustrative case . . .	369
Difficulties in applying his principle to classes of persons . . .	369
His presumption that professional exceed trade savings, and therefore that professions require greater deduction of tax on their incomes not borne out by evidence of the facts . . .	369-70
The claims of professional men for reductions vested on the totally opposite principle of inability to save . . .	370-1
Exemptions for savings would benefit only the rich . . .	371
Our poor relief an example of mercy as well as justice in taxation, and necessity of mercy to our poorer middle classes by the reduction of the income tax on small incomes . . .	371-2
Arguments for taxing the excess above 100 <i>l.</i> only; illustrations of its effects, and reasons why it should not be considered as entailing a principle of graduation . . .	372-4
General summary of the arguments adduced . . .	375-6
SCHOOLS, private, self-supporting, number, and modes of increasing them, &c. . .	60-2
Evening, beneficial effects on the retention of knowledge, of a more extended adoption of . . .	65-6
